We could say the government spend like drunken sailors, but that would be unfair to drunken sailors, because the sailors are spending their own money.

[REDACTED]

In January, we told you a Medicare law requires some people to pay higher premiums for Medicare Part B (Medical Insurance) and prescription drug coverage based on their income. We also told you that, based on information about your income, you would have to pay an income-related monthly adjustment amount.

If you currently do not have Medicare Part B or Part D and enroll in 2022, those premiums will also be increased based on your income.

Your Income-Related Monthly Adjustment Amount

You will pay \$408.20 for the income-related monthly adjustment amount of your monthly Medicare Part B premium. This change will be effective March 2022.

How We Decided Your Income-Related Monthly Adjustment Amount

To decide if your income is high enough that you must pay an income-related monthly adjustment amount, the Internal Revenue Service (IRS) gave us information about your modified adjusted gross income (MAGI) from your income tax return for 2020. MAGI is the sum of your adjusted gross income plus certain amounts of income that are not taxable. Adjusted gross income is from line 37 of the IRS Form-1040 and tax exempt interest income is from line 8b of IRS Form-1040. MAGI may include one-time only income, such as capital gains, the sale of property, withdrawals from an Individual Retirement Account (IRA) or conversion from a traditional IRA to a Roth IRA. One-time income will affect your Medicare income-related monthly adjustment amount for only one year.

IRS told us your MAGI in 2020 was \$1,277,800.00. In 2020, you had an adjusted gross income of \$1,266,216.00 plus tax-exempt interest income of \$11,584.00 and you filed your taxes with a tax filing status of Married, filing jointly. We used the following table to decide your income-related monthly adjustment amounts for the Medicare Part B and prescription drug coverage premiums:

Medicare Income-Related Monthly Adjustment Amount - Life-Changing Event

If you had a major life-changing event and your income has gone down, you may use this form to request a reduction in your income-related monthly adjustment amount (IRMAA) and you experienced a life-changing event that may reduce your adjusted gross income plus certain tax-exempt income which we call "modified adjusted gross income" or MAGI from the Federal income tax return you filed for tax year 2018. If that year is available, we asked for your tax return information for 2017. We took this information and the table below to decide your income-related monthly adjustment amount.

The table below shows the income-related monthly adjustment amounts for Medicare Part B premiums based on your tax filing status and income. If your MAGI was lower than \$87,000 (or lower than \$174,000.01 if you filed your taxes with the filing status of married, filing jointly in your most recent filed tax return, you do not have to pay any income-related monthly adjustment amount. If you do not have to pay an income-related monthly adjustment amount, you should not fill out this form even if you experienced a life-changing event.

If you filed your taxes as:	And your MAGI was:	Your Part B monthly adjustment is:	Your prescription drug coverage monthly adjustment is:
-Single, -Head of household, -Qualifying widow(er) with dependent child, or -Married filing separately (and you did not live with your spouse in tax year)*	\$ 87,000.01 - \$109,000.00	\$ 57.80	\$ 12.20
